

# SUMMER SESSIONS

## Selection Procedure

In order to produce a ranked list of instructors the Department will recommend to the *UCI Summer Sessions Office*, the TA Selection Committee uses the following criteria in reaching a decision as to whom to recommend. These criteria were established initially during its April 27, 1997 Spring meeting, and ratified at the June 4, 1997 Faculty Meeting.

To be considered for summer teaching, the candidate must, **as of the official last day of the preceding Spring quarter:**

- a. have expressed his/her intent to the Graduate Coordinator to be a **full-time (with respect to course load, including SPAN 299 dissertation research), continuing** graduate student in this department in the upcoming Fall quarter,
- b. have a minimum of **two SCEs** and **two IERs** on file at time of decision,
- c. not have any **"INC"** grades pending, nor receive any **"INC"** grade for the current Spring quarter,

Once a basic eligibility is established, candidates are recommended solely according to their **ranking**. This ranking is calculated at the beginning of each Spring quarter by averaging the overall average of the students' (SCEs) with the Language Curriculum Director's (IERs) evaluations. Teaching recommendations are then forwarded to Summer Sessions, based on the values corresponding to the most recent four quarters, as well as the TA's expressed teaching **preference**.
