## MEDICAL HUMANITIES

The Graduate Emphasis in Medical Humanities is a formal component of graduate studies at the University of California, Irvine, in addition to the fulfillment of requirements towards the Ph.D., M.F.A., or M.A. degree in an array of fields in the Schools of Arts, Humanities and Medicine. The emphasis allows students to gain interdisciplinary knowledge about the study of illness, health, healthcare and the body. Students are required to take three graduate seminars that are approved as Medical Humanities course offerings. Satisfactory completion of the emphasis is certified by the director of the Medical Humanities Emphasis and is noted in the student's transcript.
