

“The Intersection of Science and Faith”

Presented by Michael Dennin

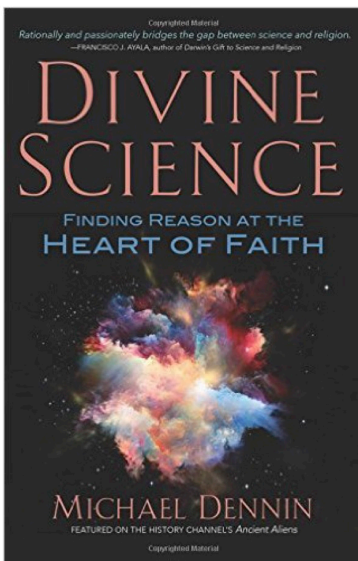

*Professor of Physics and Astronomy &
Vice Provost for Teaching and Learning*

**Tuesday, January 26th @ 5PM
Humanities Gateway 1030**

OPEN TO THE PUBLIC

Michael Dennin, author of *Divine Science:
Finding Reason at the Heart of Faith*

What is the nature of reality? For me as a physicist, this question raises others.

- Is physical reality all that exists or is there more than physical reality?
- If there is more than physical reality, can science say anything about it?
- What are the implications for questions usually associated with faith?
- Do we have free will?
- Do miracles occur?

In this talk, I will present some of my reflections on these questions and propose potential answers from my experiences as a practicing scientist and person of faith.
